

TheFibers®

HUXCleaner™ in-adaptor ferrule cleaner in stock!

HUXCleaner™ is pen type in-adaptor ferrule cleaner and there is no need to open the frame for ferrule cleaning inside of adaptors.

In the fiber optic communication, the ferrule is used as final inter-connect part between internal cabling, patchcords or fiber spans. The ferrule cleaning is the most important basis in the interconnects to prevent any signal error. Specially the back reflection specification which is issued more tightly at these days depend on any dust or oil, etc. HUXCleaner™ is designed for female side cleaning.

Special Features:

- Pen type: first in the world (Patent under application no.0008107)
